ISSUE NO. 23
MAY 2024

ADVENTURES IN COUNTRY-404

 @RYBAR

**Excerpt
from the situation report**

On the fronts of the special military operation, one can often see unconventional solutions, including technical ones. The aesthetic aspect is not considered — and this is entirely logical.

At one point, there was a lot of laughter about anti-drone grids and tank canopies. But then, on the battlefields, it turned out that these seemingly dubious solutions actually save lives.

The soldiers constantly adapt their equipment for maximum efficiency on the battlefield. Everything—from drones to tanks—undergoes trials, errors, and skilled modifications in harsh field conditions.

СОВЕРШЕННО
СЕКРЕТНО

SOMEWHERE IN THE SOUTH DONETSK DIRECTION,
NOT FAR FROM THE FRONT LINES.

*It's perfect for evacuating
the wounded: small, low,
quiet. And it's
remote-controlled too!*

*Wouldn't it be great
to attach a machine
gun to it?*

*A machine gun,
you say?*

*Wow, what a marvel!
It's straight out of 'Mad Max!'
Can you make us five more
of these?*

*Sure, even ten,
buddy!*

*You two are strange,
and your cart is strange.
It's like the creation
of a mad genius.*

*We're strange?
Valera, have you seen
your tank?*

**Our tank is fine.
Much better than their
remote-controlled cars.**

**Great tank, but we
should definitely
attach MANPADS to it,
in my opinion.**

**Zhenya,
isn't the EW
equipment enough
for you?**

**No, it's not.
It only jams drones;
what are we going
to do about aircraft?**

**What do you mean?
We'll run them over
with tracks!**

Alright, enough jokes.

**Why jokes?
I saw on the internet that
North Koreans put Igla
on their tanks.**

**Alexey has an Igla
on his tank instead
of a Kord. And he hasn't
used it even once.**

POSITIONS OF THE RUSSIAN ARMED FORCES
NEAR KRASNOHORIVKA

Boom-boom-boom!

BOOOOOM

MISHA, YOU HIT IT!
Launch the next one,
they're dug in the trench
and firing at our guys.

SECOND ONE, GO!

**They blew up
our cart.**

**I TOLD YOU, WE
NEED TO JAM
THEM WITH EW!**

**Oh you're so smart,
but how are we going
to control our cart?
EW jams everything!**

**Guys, when did
the Russians manage
to build a bunker there?**

**WHAT BUNKER?
CLEAN YOUR
EYES, DIMWIT!**

It seems like it's coming towards us...

WHOOO?

Well, that bunker of theirs...

When three are sitting in a trench and one starts hallucinating, it's bad news...

No, Petro, it's really coming at us.

**Drones!
Launch the drones
urgently!**

NO CONNECTION WITH THE DRONES.

WHAT DO YOU MEAN, NO CONNECTION?

JUST LIKE THAT! LOOKS LIKE THAT IRON KAPUT IS JAMMING US!

DOES IT HAVE EW OR SOMETHING?

TRRRR

**My connection
is down.
The drone too.**

**Oh, that's just
our guys
arriving!**

**Is it
the Krasukha?**

**No, anti-drone grill
arrived. Look: it jams
everything within
half a kilometer.**

BOOM!

BANG!

BOOM!!!

DAMN IT!
Guys, we have a wounded!
Zhenya, fire at their position,
I'll drag him behind the tank,
and you call for medical
evacuation.

**GOT IT, VALERA,
COVERING YOU!**

**How are you,
bro?**

**I'll survive,
just a scratch.**

**Hold on,
we'll evacuate
you soon.**

**No need, I can
manage. Don't leave
the guys, they'll be
overrun without your
tank here.**

TRRRR

TRRRR

Guys, I never thought I'd see such a Warhammer scene!

This is just the beginning, buddy! Come back when you recover: we'll set up a cart like that for you too. But for now, get well.

ALRIGHT, GUYS, LET'S ATTACK!

BANG!

BANG!

**Petro, let's
surrender, how can
we fight them?**

**We can't. Hell with
these cyborgs!**

**WE
SURRENDER!**

IN COMBAT CONDITIONS, THE MOST IMPORTANT THING FOR EQUIPMENT IS FUNCTIONALITY AND THE ABILITY TO PERFORM TASKS. FOR THIS, SKILLED INDIVIDUALS, USING THEIR EXPERIENCE AND AVAILABLE MATERIALS, FINE-TUNE IT.

WHILE MILITARY EXPERTS PONDER THE FORCED EVOLUTION OF ARMORED VEHICLES, THESE MAKESHIFT SOLUTIONS HELP ADAPT TO REAL CONDITIONS AS QUICKLY AS POSSIBLE AND SAVE THE LIVES OF SOLDIERS.
